I = Introduced

Habitats: FOM=Mixed Forest, CUM=Cultural Meadow, CUT=Cultural Thicket, CUW=Cultural Woodland,
SWC=Coniferous Swamp, SWM=Mixed Swamp, MAM= Meadow Marsh, MAS=Shallow Marsh

MJO = Michael J. Oldham, graminoid specialist who works for the MNR's Natural Heritage Information Centre (NHIC) in Peterborough, identified specimens collected from your property.

Coll= Collection

AMB#= Personal Collection number for Anne Barbour (these will be given a CKL #)

CKL # = Number of mounted specimen for project *Flora of the City of Kawartha Lakes, Kawartha Field Naturalists, 2009 – 2013* to be deposited in the Royal Ontario Museum Herbarium

from: <http://nhic.mnr.gov.on.ca/MNR/nhic/glossary/srank.cfm>

Srank = Subnational or Provincial (Ontario) ranking with 1 being rarest & 5 being most common

S4 = Apparently Secure—Uncommon but not rare; some cause for long-term concern due to declines or other factors.

S5 = Secure—Common, widespread, and abundant in the nation or state/province.

SE = Exotic; not believed to be a native component of Ontario's flora.

SNA = Not Applicable —A conservation status rank is not applicable because the species is not a suitable target for conservation activities.

tracked = actively tracked (ie. occurrence data is actively gathered) by the NHIC.

VASCAN = Database of Canadian Vascular Plants <http://data.canadensys.net/vascan/search/> Due to research being carried out in the tropics, many temperate zone plants have had to be redesignated, resulting in recent name changes. Other names have been changed to unify collections in herbariums across Canada.
